

DEEPAI JENA

Java Full Stack Developer

Hyderabad, India | +91 76818 16772 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience delivering production Spring Boot applications and React.js interfaces in a live climate-tech platform. Skilled in building secure, event-driven systems using Spring Security, JWT authentication, and Apache Kafka, with working knowledge of MySQL, PostgreSQL, and Oracle. Comfortable with cloud and DevOps tooling (AWS S3, Docker, Kubernetes, Jenkins, GitHub Actions) and microservices design. Known for writing clean, maintainable code and collaborating effectively in Agile teams.

TECHNICAL SKILLS

Languages & Core: Java, OOP, JDBC, Servlets, JSP, JSTL

Frameworks: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, Microservices

Frontend: React.js, JavaScript, HTML, CSS, Tailwind CSS, Material UI, Redux Toolkit, Axios

Databases: MySQL, PostgreSQL, Oracle, H2

Messaging & Integration: Apache Kafka, OpenFeign, RESTful APIs

Cloud & DevOps: AWS (S3, EC2), Docker, Kubernetes, Jenkins, GitHub Actions, Maven, Git/GitHub

Testing & Quality: JUnit, Mockito, JMeter, JaCoCo, SonarQube, Postman, Swagger

Tools & IDEs: Jira, Lombok, Log4j, STS, Eclipse, IntelliJ IDEA

PROFESSIONAL EXPERIENCE

Java Developer Intern — NexTurn India Private Limited

Nov 2024 – May 2025 | Hyderabad, India

Global Carbon Warrior (GCW) — a climate-tech platform connecting startups and investors to combat carbon emissions

- Developed and maintained Spring Boot REST APIs and implemented JWT-based authentication with OTP email verification, strengthening account security for all user sign-ins.
- Built AWS S3 file-upload, Excel export, and filtering/pagination modules that streamlined data handling and improved usability for end users.
- Integrated Apache Kafka for event-driven communication between services and implemented scheduled reminder jobs using Spring Scheduler, reducing manual follow-up work.
- Designed database-driven workflows and contributed to API integration, debugging, and backend feature development within a live production codebase.
- Collaborated within an Agile team using Git for version control, actively participating in sprint planning, code reviews, and iterative delivery.

PROJECTS

Online Food Delivery Application — Microservices Architecture | [GitHub](#)

Java, Spring Boot, Spring Cloud, Spring Data JPA, Hibernate, MySQL, Spring Security, JWT, Eureka, API Gateway, OpenFeign, Docker, React.js

- Designed and developed independent User, Restaurant, Order, and Payment microservices with clean separation of concerns.
- Implemented service discovery via Eureka and centralized routing through Spring Cloud API Gateway.
- Secured the platform end-to-end using Spring Security and JWT for authentication and authorization.
- Used OpenFeign for synchronous inter-service communication; built REST APIs for food listings, cart management, order placement, and order tracking.
- Integrated the React.js frontend with backend services and containerized microservices using Docker for consistent deployment.

PharmaGo — Online Medicine Ordering Platform | [GitHub](#)

Java, Spring Boot, Hibernate, PostgreSQL, React.js, JWT, Tesseract OCR

- Built prescription-based medicine search using Tesseract OCR to automatically extract medicine details from uploaded prescriptions.
- Implemented secure prescription upload, cart management, and role-based access control (RBAC).
- Integrated JWT-based authentication and automated email reminders for medicine refills.

Blog Application — Full-Stack Blogging Platform | [GitHub](#)

Java, Spring Boot, Spring Data JPA, Hibernate, MySQL, Spring Security, JWT, React.js

- Developed REST APIs for blog posts, categories, comments, and user management.
- Implemented role-based authorization with Spring Security and JWT, integrated with a React.js frontend and MySQL/Hibernate persistence layer.

EDUCATION

B.Tech in Computer Science and Engineering — Government College of Engineering, Kalahandi (BPUT University)

2020 – 2023

CGPA: 8.1 / 10

Diploma in Information Technology — Bhubanananda Odisha School of Engineering, Cuttack (SCTEVT, Odisha)

2017 – 2020

Percentage: 81%

HSC (10th) — Bidyadharpur Girls High School, Cuttack (BSE, Odisha)

2017

Percentage: 71%

PROFESSIONAL TRAINING

Full Stack Java Training — Naresh IT, Hyderabad

- Completed comprehensive training spanning Core Java, Advanced Java, Spring, Spring Boot, Hibernate, Servlets, JSP, and JDBC.
- Built a foundation in database fundamentals (Oracle, SQL) and frontend fundamentals (HTML, CSS, JavaScript).
- Studied microservices architecture, REST APIs, service-based application design, and distributed application concepts.
